Problems Other Than Alcohol.

(excerpted from GSA pamphlet)

Sobriety — freedom from alcohol — through the teaching and practice of the Twelve Steps is the sole purpose of an A.A. group. Groups have repeatedly tried other activities, and they have always failed. It has also been learned that *there is no possible way to make nonalcoholics into A.A. members.* We have to confine our membership to alcoholics, and we have to confine our A.A. groups to a single purpose. If we don't stick to these principles, we shall almost surely collapse. And if we collapse, we cannot help anyone.

Subject: For all those interested in the future of our fellowship.

What Happened? That question is being asked by a lot of alcoholics lately. What happened to our high success rate? 30 & 40 years ago, we were keeping 75% or more of the alcoholics who came to us for help. Today, we aren't keeping even 5%. What happened?

What happened to that wonderful A.A. Group that was around for 20, 30 or 40 years? There used to be 50, 75, 100 or more at every meeting. It is now a matter of history, gone! More and more groups are folding every day. What happened? We hear a lot of ideas, opinions and excuses as to what happened but things are not improving. They continue to get worse. What is happening?

Bill W. wrote, "In the years ahead A.A. will, of course, make mistakes. Experience has taught us that we need have no fear of doing this, providing that we always remain willing to admit our faults and to correct them promptly. Our growth as individuals has depended upon this healthy process of trial and error. So will our growth as a fellowship. Let us always remember that any society of men and women that cannot freely correct its own faults must surely fall into decay if not into collapse. Such is the universal penalty for the failure to go on growing. Just as each A.A. must continue to take his moral inventory and act

upon it, so must our whole Society if we are to survive and if we are to serve usefully and well." (A.A. Comes of Age, PG 231) With so very few finding lasting sobriety and the continued demise of AA groups, it is obvious that we have not remained willing to admit our faults and to correct them promptly. Seems to me that the Delegate of the Northeast Ohio Area, Bob Bacon, identified our mistakes and our faults when he talked to a group of AA's in 1976. He said, in essence, we are no longer showing the newcomer that we have a solution for alcoholism. We are not telling them about the Big Book and how very important that Book is to our long-term sobriety. We are not telling them about our Traditions and how very important they are to the individual groups and to Alcoholics Anonymous as a whole. Rather, we are using our meeting time for drunkalogs, a discussion of our problems, ideas and opinions or "my day" or "my way".

Having been around for a few years, and reflecting on what Bob Bacon had to say, it would appear that we have permitted newcomers to convince the old-timers that they have a better idea. They had just spent 30 or more days in a treatment facility where they had been impressed with the need to talk about their problems in Group Therapy Sessions. They had been told that it didn't make any difference what their real problem was; A.A. had the "best program". They were told that they should go to an A. A. meeting every day for the 1st 90 days out of treatment. They were told that they shouldn't make any major decisions for the 1st year of their sobriety. And what they were told goes on and on, most of which are contrary to the Program of Alcoholics Anonymous! Apparently, what they were told sounded pretty good to the A.A. members who were here when the TC clients started showing up at our meetings. And a lot of the A.A. members liked the idea of the treatment centers because the centers provided a place where they could drop off a serious drinker, if he/she had insurance. That eliminated some of the inconveniences we had been plagued with before; having to pour orange juice and honey or a shot of booze down a vibrating alky to help them "detox". When A.A. was very successful, the folks who did the talking in meetings were recovered alcoholics. The suffering and untreated alcoholics listened. After hearing what it takes to recover, the newcomer was faced with a decision; "Are you going to take the Steps and recover or are you going to get back out there and finish the job?" If they said they "were willing to go to any length", they were given a sponsor, a Big Book and began the process of recovery by taking the Steps and experiencing the Promises that result from that course of action. This process kept the newcomer involved in working with others and continued the growth of our Fellowship. Our growth rate was approximately 7% and the number of sober members of Alcoholics Anonymous doubled every 10 years. With the advent of the rapid growth of the Treatment Industry, the acceptance of our success with alcoholics by the judicial system and endorsement of physicians, psychiatrist, psychologist, etc. all kinds of people were pouring into A.A. at a rate greater than we had ever dreamed possible. Almost without realizing what was happening, our meetings began changing from ones that focused on recovery from alcoholism to "discussion or participation" types of meetings that invited everyone to talk about whatever was on their mind. The meetings evolved from a program of spiritual development to the group therapy type of meeting where we heard more and more about "our problems" and less and less about the Program of Recovery by the Big Book and the preservation of our Fellowship by adhering to our Traditions.

What has been the result of all this? Well, never have we had so many coming to us for help. But never have we had such a slow growth rate which has now started to decline. For the first time in our history, Alcoholics Anonymous is losing members faster than they are coming in and our success rate is unbelievably low. (Statistics from the Inter-Group Office of some major cities indicate less than 5% of those expressing a desire to stop drinking is successful

for more than 5 years; a far cry from the 75% reported by Bill W. in the Forward to Second Edition). The change in the content of our meetings is proving to be misery-traps for the newcomer and in turn, misery-traps for the groups that depend on the "discussion or participation" type meetings.

Why is this? The answer is very simple. When meetings were opened so that untreated alcoholics & non-alcoholics were given the opportunity to express their ideas, their opinions, air their problems and tell how they were told to do it where they came from, the confused newcomer became more confused with the diversity of information that was being presented. More and more they were encouraged to "just go to meetings and don't drink" or worse yet, "go to 90 meetings in 90 days". The newcomer no longer was told to take the Steps or get back out there and finish the job. In fact, they are often told, "Don't rush into taking the Steps. Take your time." The alcoholics who participated in the writing of the Big Book didn't wait. They took the Steps in the first few days following their last drink. Thank God, there are those in our Fellowship, like Joe & Charlie, Wally, etc., who have recognized the problem and have started doing something about it. They are placing the focus back on the Big Book.

There have always been a few groups that would not yield to the group therapy trend. They stayed firm to their commitment to try to carry a single message to the suffering alcoholic. That is to tell the newcomer "we have had a spiritual awakening as the result of these Steps and if you want to recover, we will see that you have a sponsor who has recovered and will lead you along the path the 1st 100 laid down for us".

Recovered alcoholics have begun founding groups that have a single purpose and inform the newcomer that until they have taken the steps and recovered, they will not be permitted to say anything in meetings. They will listen to recovered alcoholics, they will take the Steps, they will recover and then they will try to pass their experience and knowledge on to the ones who are seeking the kind of help we provide in Alcoholics Anonymous. As this movement spreads, as it is beginning to, Alcoholics Anonymous will again be very successful in doing the one thing God intended for us to do and that is to help the suffering alcoholic recover, if he has decided he wants what we have and is willing to go to any length to recover, to take and apply our Twelve Steps to our lives and protect our Fellowship by honoring our Twelve Traditions.

There is a tendency to want to place the blame for our predicament on the treatment industry and professionals. They do what they do and it has nothing to do with what we in Alcoholics Anonymous do. That is their business. That is not where to place the blame and also is in violation of our Tenth Tradition.

The real problem is that the members of Alcoholics Anonymous, who were here when the "clients" began coming to our Fellowship did not help the "clients" understand that our Program had been firmly established since April 1939, and that the guidelines for the preservation and growth of our Fellowship were adopted in 1950. That they must get rid of their new "old ideas" and start practicing the Twelve Step Program of Alcoholics Anonymous as it was given to us. That until they had taken the Steps and recovered, they had nothing to say that needed to be heard except by their sponsor. But that didn't happen. To the contrary, the old timers failed in their responsibility to the newcomer to remind them of a vital truth, "Rarely have we seen a person fail who has thoroughly followed our path. Those who do not recover are people who cannot or will not completely give themselves to this simple program." We have permitted untreated alcoholics and non-alcoholics to sit in our meetings and lay out their problems, ideas and opinions.

We have gone from, "Rarely have we seen a person fail" to "Seldom do we see a person recover".

So there we are. We have had 30 years of unbelievable success by following the directions in the Big Book. We have had 30 years of disappointing failure by wanting to hear from everyone. We now have something to compare. We now know what the problem is and we know what the solution is. Unfortunately, we have not been prompt to correct the faults and mistakes, which have been created by what would appear to be large doses of apathy and complacency. The problem we are trying to live with is needlessly killing alcoholics.

The Solution? The Power, greater than ourselves, that we find through our Twelve Steps promises recovery for those who are willing to follow the clear-cut directions in the Big Book.

Do you want to be a part of the problem or a part of the solution? Simple, but not easy, a price has to be paid.

IT'S NOT THE S.O.B.'S IN AA YOU NEED TO WATCH OUT FOR...IT'S THE DO-GOODERS!

One of the biggest changes to AA I have noticed in recent years is the total unwillingness of many to speak up about the things going on at the group and individual level that are unacceptable. I am not sure why we stopped "taking people's inventory" but I believe that in this climate of political correctness and complacency that passion has been lost. People just don't believe that what others are doing in AA really affects them, but that isn't true. If you don't speak up you condone the behavior by your silence. Impressionable new persons think that this behavior is acceptable and the subtle process of spiritual decline begins.

Our attitude about sexual relations is a prime example of this change. Men and, I suspect, women, seem to think that anything goes in this regard. While the "Big Book" cautions against hysterical thinking, it does say that our sexual abilities are surely "God-given", neither to be used lightly or loathed. That means that a certain amount of reverence should be attached to sexual relations. Sex for the sole purpose of personal gratification without thought about the effect on the other persons' spiritual development is less than admirable. When a person with time preys on a relative newcomer who is lonely and vulnerable it is worse. We used to call this "Cripple F* #I@G". They used to suggest that we take cold showers when the "imperious urge" was upon us, or to throw ourselves all the harder into working with others. Now we tell people that if they are over the age of consent they are not any more vulnerable than I, so mind your own business. We don't suggest prudence and we claim to be unaffected by the behavior of others. In recent years a previously stable group with a great relationship with the church they met at were forced to leave that facility because during an "AA dance" some of our less discriminate members decided to have sex on the church's alter, leaving behind used condoms. This is total disregard for the well being of each other or for the reputation of AA as a whole. I wonder if the pastor of that church has a high opinion of our spiritually based (?) organization. I wonder if he refers his parishioners who need help to us.

I recently had a discussion concerning a situation in which another member of alleged long-term sobriety was so off base with their toxic comments that I felt compelled to disagree with them publicly. I was informed that this person was really nice and should be allowed to assault the AA program based on that

niceness. Sorry, it ain't happening. This isn't a fellowship where niceness is recognized as one of the key ingredients of spiritual growth. When a bank robber is polite to the teller he is threatening with a gun the sentencing judge doesn't care if he was nice during the robbery. When a radio announcer spews racially sensitive dialogue he is fired whether he runs a youth camp or not. Why do we think that it is OK to stand by and behave in an unacceptable fashion without consequence. What are we thinking? If someone's behavior suggests that, in your experience, they are going to drink shouldn't you say something to them before they drink. A statement made after the fact that you knew they were going to drink is reprehensible and totally out of line with what should be concern for each other's well being. Let's wake up and take what goes on in our fellowship personally. (Shawn C. - editor)

Buffalo Central Office Slated for Closure in April 2009

It has been decided by the non-contributing membership of WNY AA that the Buffalo Central Office will close its' doors on April 1, 2009(Editors Calculations)).

This is how long it is predicted that the "prudent reserve", the amount determined by the steering committee to have on hand to meet our financial obligations in times of trouble,

will last and we will have to close our doors. So it is time for every group to determine how they are going to meet their primary mandate to "carry the message to the alcoholic who still suffers". How are new alkies going to find us?

Let's review the costs associated with a fictional group (The Three Stooges Group) carrying their own burden of being responsible:

- | | |
|--|-----------------|
| • Meeting place \$75 a month. Yearly | \$ 900 |
| • Coffee and donuts @ \$15 wk | \$ 780 |
| • Insurance on meeting place per year | \$ 400 |
| • Daily add in Buffalo classified (\$45 per day) Yr. | \$ 16,500 |
| • Cost of answering service a year | \$ 1,800 |
| • Cost of cell phone for group "volunteer" | \$ 1,200 |
| • Cost of literature per year (3 Big Books per wk) | <u>\$ 1,092</u> |
| • Total cost of group doing its own thing yearly | \$ 22,672 |
| • Weekly cost of group running its own show \$ 436 | |

At the first group business meeting Curly, the secretary, intimates to Larry and Moe that they are \$299 short of their budget. It is recommended that the advertising budget be abandoned reducing the weekly need to \$118 which creates a surplus of \$18 per week (\$946 yr). Let's have a anniversary dance with that surplus Moe says to Curly and Larry --- Good idea! The dance is a bust and the group loses \$400 on the dance and at the next meeting they are looking to cut costs again. Let's eliminate the cell phone, it is unnecessary since we have an answering service—Great Idea! Curly tells Larry and Moe that this will now equate to a weekly surplus of \$41.08 (\$2136 yr). After the second anniversary dance a loss of \$800 is found and the group is faced with another crisis.

What do we cut next? Moe, who is resentful because he is a diabetic and can't eat donuts, suggests the coffee and donut budget. Curly and Larry suspect Moe is off his rocker and they ostracize him into leaving the group but they keep the donuts.

Curly and Larry notice that attendance is way off skewing their budget figures and they are now only collecting \$80 per week which is a loss of \$38 per week (\$1976 yr) and their

yearly surplus shrinks to \$160 a year. We can't go on like this we need help, what should we do? Curly suggest that they contact the pastor of the church they meet in and request they let them have the hall for nothing. The pastor agrees but Larry begins to think they are in violation of the tradition of self support but Curly convinces him that they are not for profit and other not for profit agencies get funding to help them carry on their work. That reduces the weekly need to \$100.69 leaving a deficit of \$20.69. The next thing to go is the insurance and the Big Books at a savings of \$28.69 which now equals an \$8 surplus. We're in the money again and we still have our donuts. At the next group meeting a newbie off the bus from a nearby jitter joint decides that the not smoking thing is against his personal rights and he sneaks into an area with drapes to smoke. The church goes up in flames and the group has no insurance. Curly, Larry and Moe, the original signers of the lease with the church are sued by the congregation and lose everything --- all in the name of carrying the message on their terms. Moe isn't even a member anymore but he is sued anyway.

Sounds absurd doesn't it? But if we substituted jaywalking for not having a Central Office it would be true. Our central pool of experience is embodied in our Central Office and the services it allows us to provide to our membership. Our trusted servants meet there monthly to chart our course. We experience and sometimes honor group conscience there, yet we do not think we should support it. Sounds like the farmer who comes out of his storm cellar after a hurricane saying everything looks ok to me, the winds stopped blowing. (Shawn C. - editor)

9th STEP: "Made direct amends to such people wherever possible, except when to do so would injure them or others."

9th TRADITION: "A.A., as such, ought never be organized; but we may create service boards or committees directly responsible to those they serve."

9th CONCEPT; Good service leadership at all levels is indispensable for our future functioning and safety. Primary world service leadership, once exercised by the founders, must necessarily be assumed by the trustees.

Treatment Facility Report

August 5, 2007

Meeting held on 6/18/07 at Central Office:

Topics discussed: 1.) All meetings are covered. 2.) Will present a request and report to the General Service Assembly at the August meeting concerning the three other Districts in area 50, Niagara, Wyoming/Orleans and Ny/Penn that cannot contribute to the cost for the phone line and answering service that Buffalo TFC pays for exclusively in order to host Bridging the Gap Program. The original intent was that all four districts share in the cost of the program which has never happened. This has been brought to the attention of the General Service TFC Chair back in 2006 and Chris has worked diligently in first trying to locate who the Chair's were and where they were located with the exception of Ny/Penn still currently does not have a TFC Committee. Chris and was told that there is not adequate monies in their budgets to contribute and that their districts maybe cover 2 meetings per month with the exception of Niagara which does more cover 3 meetings per week.

The program was voted in at General Service in the 90's and the first chair was from Buffalo. Subsequently there has been only two other Chair persons both from the Buffalo district with this Chair being in office for five years. The original intent was that all four districts in area 50 split the cost of the program for those people who requested to be taken to a meeting when they are discharged from a treatment facility.

I have completed historical research on the cost of the phone line, answering service, and how many calls are being made? I obtained this information by contacting the answering service which incoming calls are logged and reviewing the average cost of the telephone service from the New Frontiers

Average cost of telephone service is from \$992.86 to \$1200.00.

2003 approximately 10-15 calls per month or 120/year. - This taken from minutes of TFC chair to Central Committee.

2005 Total 78 calls for the year.

2006 Total 48 calls for the year

2007 Year to date 5 or approximate average of 12 per year

Using an average of \$1000.00/year of cost:

2003 cost per call \$8.33

2005 cost per call \$12.82

2006 cost per call \$20.83

2007 cost per call \$83.33

Since Bridging the Gap program is under the guise of GSA because of the District coverage and is a program designed from World Service my request is to ask GSA to contribute to cover the three districts those are unable to cover their portion of this program.

3.) The locker at Ecmc was cleaned out and for informational purposes only following is a list of materials that were being handed out to clients. Also, the cabinet was locked and to our knowledge only A.A. members had keys:

ARTICLE ON THERAPY FOR THOUGHTS THAT CREATE DISTURBANCE,
RATIONAL EMOTIVE THERAPY, LOVE YOURSELF AND ME, ORIGINS OF THE
FAILURE LIFE TRAP, CAUSES OF STD'S, ME AND MORE ME, A LETTER FROM
SATAN, MY NAME IS COCAINE.

Further, this was not the first time materials similar to these were cleared out over the last few years. Our hope is now only Big Books and approved literature will be in the cabinet.

- 4.) TFC voted not to host a Day of Sharing for a couple of reasons. I typically travel the most in the fall and already there are several Days of Sharing planned on other topics and another would saturate the community in the next months to come.
- 5.) TFC will cover the Fall convention Friday 8:00 am - 10:00 pm, Saturday, 10:00 am - 3:00 pm and Sunday, 8:00am - 10:00 am.
- 6.) TFC has elected two Co Chairs - Laura D. As Bill Sees It and George W. Fredonia Group.
- 7.) Guideline Number 10 revised to include World Service Number and Literature Account Number for ordering of TFC packages of pamphlets.

Respectfully Submitted: Patti S. As Bill Sees It

I volunteered to review the recorded numbers listed in the New Frontiers to create a financial analysis to the question of profitability being made from the sales of literature.

Analyzing from Generally Accepted Accounting Principles, I listed the sales, cost to purchase, and profit generated after inventory change. Inventory is included to accurately determine profit or loss because it acts as an asset before it is sold.

To determine actual profit you must include beginning inventory and ending inventory variance.

If the ending inventory is higher than the beginning inventory, then inventory was built which means that all that was purchased was not sold. A credit must be recorded.

Subsequently, if the ending inventory is lower than the beginning inventory, then inventory was reduced which means that more was sold than purchased and the cost must be recorded.

This is done to report actual profit of what the Central Office sold.

Year 2006 profit was \$5890.00 after expenses because ending inventory was lower than beginning. A very low profit for the quantity of sales sold.

Recommendations:

- 1.) Create detailed inventory and sales excel sheets be kept and reported monthly of pin, books, pamphlets, and medallions. These sheets should include cost, units sold, and selling prices. Markup is then determined from these numbers.
- 2.) Reduce inventory because maintaining lower ones will free up cash for other uses.
